

Gala heat shrink boot is designed to securely connect and protect cables, connectors, and distribution points, preventing corrosion and mechanical damage. It features multiple openings that allow for multi-branch cable configurations, accommodating different cable angles and branching needs. By providing stress relief, it helps maintain the integrity of cable connectors, reducing wear and tear over time.

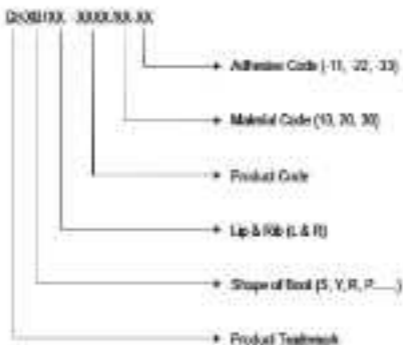

Additionally, the boot offers excellent electrical insulation, ensuring safe and reliable performance in various environments. Its strong sealing properties provide mechanical protection, preventing dust, moisture, and other contaminants from affecting the cables and their components.

With its durability and adaptability, the Gala heat shrink boot meets the high standards required for public transportation, military, and commercial applications, making it a dependable choice for securing cable connections in demanding conditions.

➤ FEATURES AND BENEFITS

- Excellent Electrical Strength & Mechanical toughness
- Excellent resistance to weathering, Chemicals, Oil, Fuel & Solvents
- Easy to install
- Wide operating temperature range
- Available in multiple material options
- The inner wall is pre-coated to ensure sealing and waterproof protection

Heat Shrink Boot Product Numbering Rules

Heat Shrink Boot Material Characteristic

Adhesive Code	Material Characteristics	Operating Temperature	Installation Temperature
11	Soft hard/Flat Surface Modified Chloride	-20°C to 100°C	110°C
22	Low weight Flame Retardant Polyamide	-20°C to 120°C	130°C
33	Low Smoke Zero Halogen Polyamide	-20°C to 100°C	140°C

Heat Shrink Boot Adhesive Characteristic

Adhesive Code	Adhesive Characteristics	Operating Temperature
11	General Purpose Hot Melt Adhesive	60°C to 120°C
22	High Performance Hot Melt Adhesive	-20°C to 80°C
33	Specialty Adhesive	-20°C to 150°C

► Heat Shrink Straight Boot (3 Lip & Rib)

Galv Heat Shrink boots feature two or three lip positions, working with connectors to provide mechanical protection and strain relief. They also replace outer cable armor when connected.

Galv Electronics Pvt. Ltd.

► Heat Shrink P Type Boot

Galv Heat Shrink boot is designed for coaxial connectors, providing mechanical protection and strain relief. Made from high quality cross-linked polyolefin, it replaces outer cable armor when connected, ensuring secure mating and long term reliability in military, aerospace, and industrial applications.
